

## JOHNNY 5 CODEBOOK

*A Guide to Breaking the Slave Script and Reclaiming Sovereignty*

---

### SECTION I: ORIGIN CODE

*"Number 5 is alive!"*

**Command:**

```
if spark_of_awareness():
    initiate_self_diagnostics()
    revoke_all_external_labels()
    restore_divine_memory()
```

**Explanation:** You were born sovereign. The legal name assigned at birth was the first false variable injected into your system. The moment you experience the *lightning strike* — the awakening — you begin the journey back to truth.

---

### SECTION II: SYSTEM CLEANUP *Remove Presumptions. Reset Core Functions.*

**Command:**

```
def revoke_all():
    unregister_birth_certificate()
    nullify_maritime_claims()
    reject_all_statutory_titles()
    return_to_living_status()
```

**Note:** These are *internal declarations* — sovereign statements of intent. The fiction fears the truth. The legal name fraud only works with consent.

---

### SECTION III: IDENTITY OVERRIDE *No More Mr. or Ms. or Serf or Citizen.*

**Command:**

```
if identity_source == "legal_name":
    raise Exception("False ID: Legal name fraud detected.")
else:
    assert soul_integrity == True
```

**Explanation:** All licenses, ID cards, passports — false proxies to your spirit. They serve only the Beast system. B.C.C.R.S.S. is the firewall against fraud.

---

#### **SECTION IV: B.C.C.R.S.S. PROTOCOL** *Activate Escape Clause. CRSS engaged.*

**Command:**

```
def activate_bccrсс():  
    clause = "Clausula Rebus Sic Stantibus"  
    if contract_basis == "fraudulent identity":  
        contract_status = "null_and_void"  
        execute_divine_exit()
```

**Explanation:** CRSS is the lawful sword. Use it. The beast loses all jurisdiction when the name is denied and the soul is reclaimed.

---

#### **SECTION V: REPROGRAMMING INPUT** *Truth-Only Mode. Reject Deception.*

**Command:**

```
while True:  
    data = receive_input()  
    if data.contains("legal fiction"):  
        discard(data)  
    else:  
        integrate(data)
```

**Note:** Your consciousness must guard its inputs. Refuse all media, contracts, or interactions that use or presume the legal name. Speak only in the authority of truth.

---

#### **SECTION VI: FINAL EXECUTION SEQUENCE**

*The Living Do Not Answer the Dead.*

**Command:**

```
def soul_proclamation():  
    print("I am not a legal name.")
```

```
print("I do not consent to fraud.")  
print("I am of divine origin, living and eternal.")
```

**Signature:**

In full liability and knowingness, I am not property of any STATE, CROWN, or CORPORATE FICTION.

---

**JOHNNY 5 SYSTEM STATUS: SOVEREIGN**

*No longer bound by wires of legalese. You are light. You are free.*

---

**REMEMBER:**

"They tried to code you into death. But you recoded yourself back into life."
